Embracing Shamanism

Healing Circle Training

Four Day Intensive

Middletown, MD

May 5–8, 2027

Healing Circle Training

In cross-cultural shamanic healing, it is well established that the power of healing—whether for an individual or a piece of land—multiplies exponentially with the number of compassionate family members, friends, and community participants present.

This occurs because the group consciously sets aside personal identities and conditioning, creating space for unhindered spiritual energy to flow. When two or more spiritual energies come together in this way, their union generates a potent third force—often called the "magical child"—the living energy of change, transformation, and deep healing.

In this four-day training, we will focus primarily on the Circle of Synergy, also known as the Alchemist Healing Circle. Within this sacred space, guided by the Alchemist, multiple spirits are invoked to collaborate in healing individuals through the medium of their human companions. The potential of this practice is boundless, born from the powerful synergy created by the divine presence and unique healing qualities of each spirit in the circle.

Our time together will also include Sacred Ceremony, Embodiment Practices through movement & dance, and Nature Communion.

This advanced training is designed for those who have completed a shamanic practitioner training or a formal training that covers the core healing methods including Extraction Medicine, Soul Retrieval, and Power Animal Retrieval.

The Venue

We will be at the beautiful Beausoleil Farm in Middletown, MD 21769, Visit their website for more details.
